

CANNOT PLAY IN FOOT BALL ELEVEN

MAYBURY AND COCHEMS ARE PROFESSIONALS.

They Have Been Expelled From the State University Team—The Former Admits the Charge But the Latter Denies It—They Are Going to Harvard.

James H. Maybury and Henry F. Cochems have been expelled from the University of Wisconsin football team, the charge of professionalism having been proved against them through the investigations instituted by Chicago University with a view to ascertaining their status. The university relinquishes all claims to any athletic records that have been made by Maybury and Cochems since September 12, 1895. The important portions of the resolutions follow:

Whereas, In the course of the past summer intimations came to members of this athletic council that J. H. Maybury and H. F. Cochems, students of this university, had participated in certain athletic games held at Spring Green, Wis., during the vacation of 1895 in such a manner as to vitiate their amateur status; and

Whereas, It has been found as the result of a careful and full investigation of the matter by this council that said J. H. Maybury and said H. F. Cochems did violate the athletic rules of this university and of the Western Intercollegiate Amateur Athletic association at the meet in Spring Green, held on the 12th and 13th of September, 1895; therefore,

Resolved, That J. H. Maybury and H. F. Cochems be and are hereby declared to have forfeited their amateur standing in this university and all right to participate as contestants in any of the teams or athletic events of this university.

Maybury frankly admits the charge against him, but justifies himself on the ground that he needed the money to keep himself at college. Cochems will neither deny or affirm the charge. Both Maybury and Cochems have taken part in eastern and western athletic meets as members of the Chicago Athletic Association team.

Maybury and Cochems will leave in a couple of days for Harvard where the former will take postgraduate work and the latter enter the law school.

CANDIDATES ARE PLENTIFUL

Charles L. Fifield Has Been Looking Over The Ground At Beloit.

Local candidates are stirring up matters previous to the election of a municipal judge in the spring of 1899, says the Beloit News of yesterday.

Six years ago there were three candidates, M. M. Phelps, the present incumbent, J. W. Bates, of Beloit, H. S. Sloan, now a resident of Edgerton.

The fact that Charles L. Fifield, of Janesville, was in Beloit yesterday; develops that the fight of next spring has already started. Mr. Fifield was carefully looking over the situation and seeking support for the office. As there are three candidates now some one will probably be disappointed on a solid delegation.

J. W. Bates is again an aspirant for the office as well as J. R. Booth, police justice of Beloit and J. R. Dow, who is now justice of the peace and court commissioner, with Mr. Sloan, of Edgerton, and the many more that the future is to develop, the spring campaign promises to be a lively one.

TWO HUNDRED SUBSCRIBERS

New Telephone Enterprise Seems To Please The Local Public.

Frank L. Bills and E. L. Worthman, of Chicago, who are now making a canvass of the city in the interest of the new telephone exchange that is to be put in here this fall, report having received nearly 200 subscribers.

The majority of those who have signified their intention of taking the phones are local business firms who will have them placed in their private homes as well as in their places of business. "We are almost certain that we will secure our 400 subscribers," said Mr. Bill this morning, "for they are now coming at the rate of thirty a day. We expect the canvass to be complete in three weeks' time at the longest."

BENJ. DIXON FURNISHES BAIL

Was Given His Liberty at the Jail Last Evening.

Benjamin Dixon no longer lingers behind the bars of the Rock county jail for the lack of bail. The \$100 bond that was fixed by the court yesterday, when Dixon was held for trial, charged with receiving stolen property, was furnished last evening by local relatives, and the prisoner was given his liberty. Dixon says that he was not so deeply mixed up in the stealing of that watch as some people would like to have the public believe.

THE BASTILE ABOUT EMPTY

One Beloit Drunk Is All That Remains There at Present

The Rock county jail has at present but one prisoner, Sheriff Acheson and Turnkey Brown say that it is now the emptiest that it has been since they have been in charge, and not in years has it got down to one prisoner. The lone prisoner is a drunk from Beloit by the name of Jackson, who is here serving a forty day sentence for indulging too freely in booze.

WORK OF A HOME ARTIST

Paintings by Theodore Robinson on Exhibition at Evansville

Many of our citizens remember Theodore Robinson, the noted artist, who formerly lived in Evansville. His early talent for painting attracted much attention in this vicinity, and when he went to Paris to study art much was expected of him. These hopes were fully realized when, at the World's Fair, he received the first American prize for general excellence. He was not destined to enjoy the fame he had attained, however, for he died several years ago, leaving many plans and pictures unfinished. A large number of Mr. Robinson's pictures have just been brought to Evansville and placed on exhibition there attracting much attention and admiration.

For some time previous to his death Mr. Robinson had a studio in New York and his work was in great demand when he was overtaken by death.

SEVERAL ARE AFTER CUMMINS' PLACE

BUSINESS MEN WILLING TO RUN CAR LINE.

Candidates Are Not Lacking, But As Yet No One Has Been Appointed—Cummings Has Not Heard From Blabon As to His Resignation—Business Is Good.

Now that Mark Cummings has handed in his resignation as superintendent of the Janesville street car line the one question is, who will take his place?

That several well known men in this city would like the position and have already made application for it is well known. Mr. Cummings, who has been out of the city during the past few days on business is again at his post of duty. When asked as to who he thought would assume control of the car line he stated that he knew nothing about who Mr. Blabon had in mind.

Several days ago Mr. Cummings' resignation papers were forwarded to Mr. Blabon at Philadelphia, but as yet they had not been answered. Mr. Blabon seems to be taking his time in this matter and no doubt will appoint the right man for the place when he comes.

Don't Understand It

Of the local business men who have applied by letter to Mr. Blabon for the position but few are adapted for the work when it comes to understanding anything about electrical work. A superintendent of an electric street car line in a town the size of Janesville will find out that more is required of him than to do merely office work. Certain employees of the road would like the position, and have applied to Mr. Cummings for assistance.

Business Is Good

In syeeking of the business that has been done by the line this summer Mr. Cummings says that the company has no reason to complain, for the receipts have been better than was really expected.

Business on nearly all branches in the city shows an increase over last year, and especially noticeable is this on the Forest Park line. As to how long the line will operate this fall is a question that local employees are unable to answer. That it will shut down as soon as the first good snow sets in is the intention of Mr. Blabon, if at that time the daily running expenses exceed the receipts.

Mr. Cummings expects to leave for South Bend, Ind., to commence his new duties about the first of next month. He will assist in building a new line from South Bend to Goshen by way of Elkhart.

SPAIN MUST GET OFF CUBAN SOIL

DELAY IN EVACUATION IS BECOMING IRRITATING

Washington Authorities Will Stop Peace Commission's Work Until Terms of the Protocol Are Complied With—Committee on Conduct of the War Meets.

Washington, Sept. 24.—[Special]—There must be a truce to further delay in carrying out the terms of the protocol between Spain and the United States. That agreement called for the immediate evacuation of Cuba by the Spaniards. Nothing looking toward evacuation has yet been accomplished, nor does Spain manifest a disposition to move in the matter. This state of affairs has become irritating and formed the subject of discussion at a gathering of high officials here this morning. It was practically decided that the general peace commissioners to Paris be instructed to refuse all intercourse with the commissioners from Spain until the Spanish evacuation of Cuba has begun and has attained such progress as to place the movement beyond recall. No more paltering will be permitted, no matter what cause may be offered.

GERMANY'S ALLEGED PLOT.

Said to Be Preparing to Seize the Philippines With Aguinaldo's Help.

Washington, Sept. 24.—[Special]—The report that Germany contemplates the seizure of the Philippine Islands with the assistance of Aguinaldo does not create anxiety among officials here. Every confidence is reposed in the vigilance and discretion of Admiral Dewey. If such a scheme is on foot Dewey doubtless knows of it and is fully prepared to checkmate it. His force at Manila is sufficient to enable him to successfully combat the entire German navy. It is not doubted that Aguinaldo would enter upon such a conspiracy, if it offered any chance for the gratification of his inordinate ambition, but it is not believed that the German emperor would attempt an undertaking so full of hazard. The reports, however, come so direct that the matter will doubtless receive consideration at the cabinet meeting on Tuesday if not sooner.

It is not yet decided whether or not the sessions will be held in secret.

KNELT AT HYMEN'S ALTAR

Surprise to the Friends of Henry Cone and Ethel Ballard.

Friends of Henry Cone, a fireman on the Chicago, Milwaukee & St. Paul road, and Miss Ethel Ballard, of Milton, were surprised yesterday to learn of their marriage, which took place on Saturday, September 4. The couple had been acquainted for a long time, but no one suspected that the marriage had taken place. Mr. Cone is highly spoken of by his associates on the road as a young man of exemplary habits, while his bride is well known and highly esteemed by the entire community at Milton. Their many friends will extend to them the most sincere congratulations.

GAVE A SHOW IN MEXICO

Col. Hall Returns From a Circus Tour of Our Sister Republic.

Col. G. W. Hall, who is probably the oldest circus man in the United States, and who resides in Evansville, has just returned from a tour of old Mexico. He has been absent two years, and during his wanderings in our sister republic saw many things that were strange and interesting. Of course he attended a bull fight, as all Americans do, just for curiosity. At the close of one of these contests his wife was presented by the chief matador with the barbs used in the fight—little darts hung at the bull that pierced his hide and irritated him into fury.

Col. Hall did a good business while in Mexico, but has no desire to take up his residence there. He is perfectly contented to remain under the stars and stripes, and of all portions of Uncle Sam's domain he prefers Evansville. He may return to Mexico at some future time, but will spend the winter at home.

FIVE ARRESTS MADE

New Developments in the Pond Murder Mystery at Bridgeport, Conn.

Bridgeport, Conn., Sept. 24.—[Special]—Five arrests have been made in the Yellow Pond murder mystery. The prisoners are Endora, daughter of Nancy Guilford, and two of Nancy's colored servants, and Harry Oxley and Howard Cursey. Oxley has confessed that Nancy Guilford attempted to bring about an abortion on Emma Gill. Oxley is believed to be the man who paid the woman for her services.

The police say today they have positive proof that Nancy Guilford cut up the body and that her son threw parts in the pond. The heel of the woman's shoe and a portion of the pocket of her dress were found in the ashes in the furnace at Mrs. Guilford's home.

THEY TRIED TO BREAK JAIL

Train Robbing Tramps Nearly Secured Their Liberty Yesterday.

The three tramps—Charles Williams, William Denby and Frank Moran—who recently held up the Janesville-Fond du Lac passenger train at Jefferson and who received the worst of it from Superintendent Fred Moulton, of this city, who was on the train at the time, came near breaking jail at Jefferson yesterday morning.

They were discovered by Julius Brose, the sheriff's hostler. He immediately summoned the turnkey and the sheriff and the prisoners were caught and transferred to other cells. The hole they made in the jail was almost large enough to let them through, and they had tied their blankets together, making a rope, which they had already in place. It is thought they had help from the outside, as they could not have secured the tools any other way. The tools consisted of seven pieces of iron.

Members of the local High school foot ball team met at the High school building yesterday and voted to play the South Side High school eleven of Milwaukee next month, the game to be pulled off in the Cream City.

Those who are now trying for places on the team are: Bump, Murvin, Jerg, Carpenter, Smith, Atwood, Ryan, Brooks, Pitcher, Casford, Bonesteel, Smith and Carr.

ROCK RIVER GETTING LOW

Manufacturers Who Use Water Power Are Making Complaint

Rock river at this point is at a low stage. Within the past few weeks the river has been falling and the late occasional showers have not been of sufficient volume to counteract the rapidly diminishing flood. Local manufacturing firms are suffering for the want of water power, but as the majority of them are provided with steam they are not compelled to shut down. Below the upper dam one can almost wade across at any point. It will prove unhealthy for that section of the city if it gets much lower, for it leaves so many scum-covered, disease-breeding islands exposed.

After eight o'clock tonight we slaughter everything perishable in fruit and vegetables as usual. Bring down a little money and see how far it will go. Sanborn.

ON THE VERGE OF REVOLUTION

FRENCH CABINET SORELY PERPLEXED OVER DREYFUS CASE.

Delays Giving a Final Verdict Upon the Question of Revision—Trouble is Expected Whichever Way the Decision Goes—The Country is Ripe.

Paris, Sept. 24.—[Special]—It is believed a crisis in the Dreyfus affair is at hand. The cabinet is sorely perplexed, and at its meeting today agreed to further postpone its verdict in the Dreyfus revision matter until Monday. The delay leads to the belief that the Dreyfus commission to which the question was referred, decided upon revision. The cabinet members, upon whom the final verdict now rests, realize that a grave situation will be created either way they decide. The country is believed to be on the verge of a revolution. Threats are made of a revolt against the army in case revision is denied, and prominent army officers threaten to rebel if the original verdict is set aside. The cabinet is between the devil and the deep sea.

Paris, Sept. 24.—[Special]—The cabinet council has adjourned until Monday without making any announcement of the decision of the revision commission.

Carl Pabst and Henry Marsden Are The Victims

While at work at the Jeffris planing mill this morning Carl Pabst, the well known carpenter, accidentally caught his left hand in the planer and before he knew it he was minus a portion of his thumb as well as having one of his fingers badly cut. Dr. E. F. Woods, who was called, was obliged to amputate the thumb at the first joint.

Henry Marsden, who is employed at the M. D. Taylor & Co. machine shop on North Main street, is nursing a badly bruised right hand. He caught it beneath a punching machine and injured it so bad that Dr. W. H. Judd, who was called, was obliged to take several stitches in it.

TO AID THE SOLDIERS.

Northwestern Road Issues a Humane Order as to Them—Volunteers on Trains Must Be Treated with All Consideration.

A humane order has just been issued by the Chicago & Northwestern R'y.

Impressed with the pitiable condition of a majority of the returning soldiers, General Manager Whitman of this road, has determined that none of the boys in blue who may come into contact with his company shall suffer for lack of attention. The Northwestern system covers five or six states which furnished a large proportion of the volunteers, and in order that the boys may be treated kindly on their way home, whether discharged or on furlough, Mr. Whitman has issued special instructions to every agent and conductor on the entire system to give special care and attention to returning soldiers en route from camps to their homes while upon the trains or at the stations of the Northwestern. The employees are instructed to be diligent to ascertain if any of the soldiers are in need of food, and more particularly if they are sick and require medical attention, and if any such are found he is to be attended to at the expense of the company, if necessary. It will not be necessary for the soldier to be in uniform to get the advantage of the road's hospitality, for if he can show the proper papers of discharge or furlough, he will receive the same consideration.

"We cannot do enough for the returning soldiers," said General Superintendent Sanborn, in speaking of the order. "The boys went down there and faced death in a hundred different ways, and those who escaped are returning home debilitated and worn out. They did this for what? Not for money; it is not in any sane man to resign himself to death for a money consideration. They did it for the love of country."

Other roads probably may follow the Northwestern's humane move.—The Chicago Chronicle.

J. E. HAYNER and family left this morning for Madison where they expect to reside while their daughter, Virginia, is taking a four years' course in the state university.

The churches will be attractive resorts for all who wish to improve their minds and have their zeal renewed in the cause of religion. FRENCH FALL TAILOR GOWN FROM HARPER'S BAZAR

A gown of light weight mixed wool in a small checked pattern of fawn, very fashionable for tailors' gowns this autumn, is trimmed with velvet bands strapped again in the center with lady's cloth of a paler tint, so closely that very little of the velvet shows between. The illustration which is reproduced from Harper's Bazar, and for which cut paper pattern may be secured, gives an idea of the cut of the gown.

The circular skirt is attached in the back without any visible fullness at the waist line, hanging lower down in an easy graceful fold and perfectly straight in front, where the band trimming is curved apron-fashion in double rows. The width of the skirt at the hem is four and a half

yards; the lining and outside are cut the same form and are seamed and faced in the usual manner.

The jacket in the style of a Zouave is cut away sharply in front, just above the waist line. The double revers, rather wide and pointed, roll back over a chemisette of cream colored silk muslin, plaited and finished with a soft bow at the neck. The jacket, in the back, is fitted closely to the figure and finished with double basques open behind and curving to the front, the belt of black velvet with gilt buckle concealing the seams.

A high flaring medallion collar is the finish at the neck, and the decorations of the jacket are bands similar to those of the skirt, with groups of cameo buttons, that appear also on the skirt front.

INSTANTANEOUS RELIEF

From Asthma Has Been Afforded Many Sufferers in Janesville.

If there was doubt in the mind of any sufferer from asthma in this city as to the truth of the claims made for Dr. Schiffmann's Asthma Cure, that doubt no longer remains, providing he was among those who called at E. B. Heimstreet's drug store last Thursday and obtained a free sample package. A great number who have already tried the same declare in positive terms that relief was immediate; that the wretched spasms were checked; that free expectoration was induced; that a reclining position was readily assumed and gratefully maintained; that the sleep which followed was restful and unbroken; and that the morning brought a clear head and a feeling of delighted thankfulness which no words are too strong to describe.

Abundant voluntary testimonials prove that Dr. Schiffmann's Asthma Cure not only gives instant relief in the worst cases, but has positively cured thousands who were considered incurable. The remedy is now sold by all druggists in packages at 50 cents and \$1.00, thus bringing it within the reach of all. Should any reader be unable to obtain it of his druggist, it will be sent, postpaid, by sending to Dr. R. Schiffmann, 316 Rosabel St., St. Paul, Minn.

SHOWS A LARGE ATTENDANCE

University Enrollment This Year is Larger Than Ever Before.

Many of the local students who will attend the state university this year have already left for Madison, and the balance will leave the first of next week. The state university opens again next Wednesday and already a large number of students are back and many prospective freshmen are making arrangements for attendance. Registrar Heistand predicts a fresher class of 500, which will bring the total attendance to be expected for the year near the 2,000 mark.

Stomach and Kidneys All Out of Order

Hands Itched and Swelled—Hood's Sarsaparilla Completely Cured.

"For a number of years I was troubled with my stomach. Nearly everything I ate would sour and I would belch it up. At times my stomach gave me great distress. I bought six bottles and began taking it. In a short time my stomach appeared to be all right and my back felt better. When I had taken four bottles my back was all right and my hands were smooth." ATTACKS PREMEDITATED

The following Washington dispatch throws a little light on current events:

"But for the factious opposition of populists and for democratic indecision," said an official of the republican committee, "a competent committee of congress would have been in session at Washington and in the great army camps the greater part of the summer, investigating and correcting, and no doubt preventing in a large degree, the unfortunate conditions which have existed."

"In the closing hours of the last session of congress the chairman of the committee on military affairs, Representative Hull, of Iowa, offered a resolution authorizing the committee on military affairs to sit during the recess of congress, and investigate the equipment of the army. The republicans were ready to pass the resolution, and with an amendment providing expenses to conduct the investigation elsewhere. The democrats hemmed and hawed about it until Jerry Simpson, the populist, took his cue and objected, thus killing the resolution."

"The most disgraceful feature of the case was the frank avowal of Jerry Simpson of the resolution which actuated his objection. He openly stated that he desired to make political capital out of the sufferings of the soldiers. Mr. Simpson's patriotic and broad-gauged remarks, as they appear in the Congressional Record, were as follows:

"Mr. Speaker, I want to say to the gentleman from Iowa that we have within the last month passed bill after bill providing for a thorough organization of the army. Inspector generals with out number, and we have all those officers to look after the matters in connection with the army. I do not see any good to come out of a committee of civilians to investigate it, and I want the party in power that appointed the men to assume the responsibility, and therefore, I object to the consideration of this bill."

SOLDIERS FOR HAVANA.

No Wisconsin regiment will go to Havana with General Lee. A Washington dispatch says: General Miles has completed his plan for the reorganization of the volunteer forces into new corps, divisions and brigades. This plan contemplates a reorganization of the volunteer forces which have not been ordered mustered out and designates an army of occupation for Cuba, provides for the relief of the army in Porto Rico, and in the various islands which will be occupied by the United States.

It is known that the troops of the Seventh corps now under Gen. Lee, will be designated to go to Cuba, and that troops from the camps at Lexington, Knoxville and Middletown will be selected for Cuban duty. It is understood that Gen. Miles deals only with original organizations, such as corps, divisions, brigades and regiments. The matter of commanding and staff officers

has been determined, and it is understood that the president has this matter even now under consideration.

Chairman Hull, of the house military committee, will introduce a bill at the next session to increase the regular army to 100,000 men, and the St. Louis Globe-Democrat says the reception of this measure by the democrats will show exactly where they stand on the subject of military preparation.

The Beloit Free Press says: "In the next war there will be no need of quartermaster, commissary or medical department nor secretary of war. Only just Dr. Senn."

The Milwaukee Sentinel interviewed a number of farmers who were in the Cream City to attend the state fair. They all told a story of prosperity, saying that they had raised good crops and received good prices therefor.

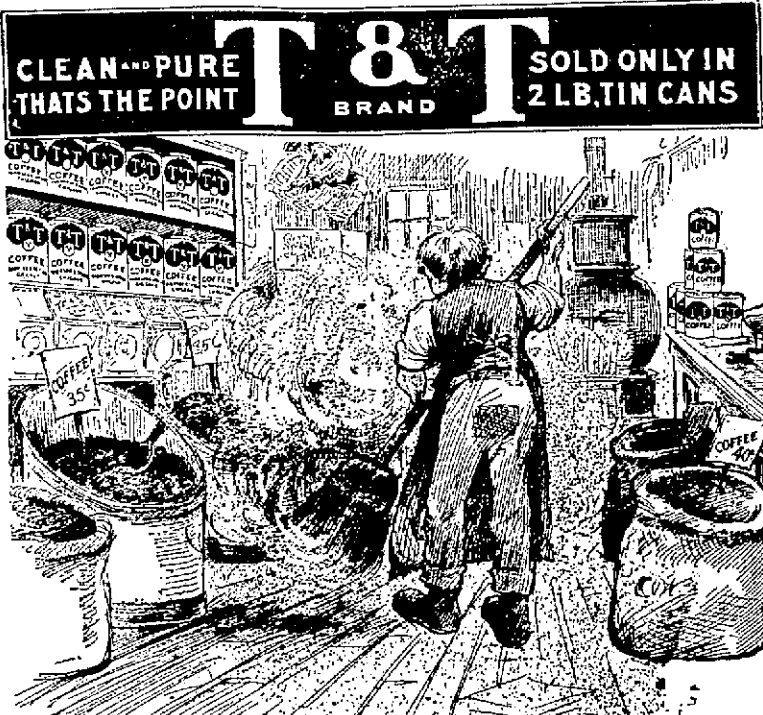

Uncle Sam is now collecting enough revenue at Santiago to meet all expenses including salaries, etc.

Bryan seems to be working as hard to get out of the army as he did to break in a few weeks ago.

Clara Burton is home on a furlough. She has done her work well, and deserves a rest.

Attorney General Griggs has made a speech favoring a policy of expansion.

Mr. and Mrs. J. W. Lloyd, of Yuba street, are spending the week in Milwaukee and taking in the state fair.

USE GOOD COFFEE!

Buy the Right Brand and the Coffee Pot won't Fail You

The greatest trouble with those who have a sensitive coffee palate is the indifference with which they buy the berry. All sorts of things are called coffee. Almost anything browned and ground can be made to resemble coffee, but to get the bracing strength, the peculiar aroma and the rich, pungent flavor of the Java properly blended depends almost entirely upon how it comes from the store. Ordinarily one selects a certain favorite mixture of this and that variety from the open bins that are exposed to the dust-laden atmosphere of the store and no wonder coffee is "hot" so good as it used to be. Now, every leading grocer in town has good coffee if you will ask for it. It is called

"T & T COFFEE"

put up in the right way in a package sealed at the mill. Here it is thoroughly cleaned and roasted by a new process that retains all the aroma and strength and is immediately put into air-tight tin cans and when you open the can at home, the coffee is absolutely clean and pure, but all its strength and aroma that is quite different from what you have heretofore been accustomed to. You get real coffee, and you can buy it in two pound packages, in the berry. Ask for T & T Coffee next time you buy and note the difference. It will please you.

COTERIE CLUB WILL BANQUET SOLDIERS

THEIR OWN MEMBERS WERE IN SERVICE.

Feast Will Take Place This Evening, But For Only Soldier Boys That Belong to the Organization—Rooms Have Been Decorated—Officers Here Tuesday.

Members of the Coterie club will tender certain volunteers of Co. A, a banquet this evening; the festivities to take place at their South Main street quarters. Those in whose behalf tonight's event is being given are Carl Buchholz, Frank Reynolds and Ross King. John Fletcher, who is also a member of the club, will be unable to be present on account of being detained at Jacksonville as a member of the regular army corps.

A Patriotic Organization. When the call for volunteers reached the city in the spring these four members of the Coterie club at once made application to Captain Hanson for enlistment, and they easily passed the examination and were sworn in. That they made as good soldiers as any in the entire company was the opinion of the officers in charge. Now that they have returned in safety the club will this evening eat, drink, and make merry over the fact. The club rooms have been tastefully decorated and nothing will be found wanting—unless it be the ladies, who will be noted for their absence. Caterer George A. Shurtleff will be in charge and covers will be laid for twenty-five.

Inspecting Officer Coming. Captain Hanson has received word that next Tuesday the local company can expect an inspecting officer here to look after and check up all equipments that have been returned by the soldiers. The articles to be inspected includes all knapsacks, guns, canteens, and all other equipments excepting clothing, which is now the personal property of the soldier.

Each man will be held strictly accountable for every piece of army equipment given him by the government, and he will be required to pay for every missing article unless the captain should care to assume the loss, as the captains are the ones held directly responsible by the government. The captains will then turn over this property to Lieutenant Caldwell, who has been designated as quartermaster, commissary and ordnance officer, and he in turn will consign it to the receiving stations to be named by the government.

DETROITS WERE VICTORIOUS

Defeated the Local Team by a Score of 5 to 2 Saturday.

The game of base ball between the Detroit league club and a local nine yesterday was not concluded when The Gazette went to press. The game throughout was marked by good play, and although the home team was defeated the members had nothing to be ashamed of, for they kept the score of the visitors down to five runs, while they appropriated two for themselves.

The game was free from noteworthy incidents. All the positions were well played on both sides, few vital errors being scored against either club. The score at the close of the game stood: Detroit..... 2 0 0 1 2 0 0 0 5-2
Janessville..... 0 0 0 0 2 0 0 0 0-5
Struck out—By Adkins, 7; by Briggs, 7. Base on balls—Oll Briggs, 1. Errors—Janessville, 6; Detroit, 4. Two base hits—Shawmut, Burlew. Hits—Janessville, 6; Detroit, 2. Hit by pitched ball—Sutcliffe. Left on base—Detroit, 3; Janessville, 2. Umpire—Fred Gillman. Evansville.

WHOLESALE BAKERY OPENED

Hockett & Son Will Operate Their Shop Day and Night.

It is constructed of brick, is two stories high, and has a commodious basement, where the ovens are located.

NO 10 O'CLOCK LUNCH.

A Food That Sustains The Body After Common Food Is Exhausted.

With many people there comes a feeling of faintness and need for food before the noon hour is reached. This is generally because of the use of white bread and other non-nourishing articles of food used for breakfast. It is a cause of comment among those who use the concentrated food, Grape-Nuts, that no feeling of hunger is felt until the noon hour. The facts show forth that the food is sustaining and nourishes and feeds the body hours after the power of ordinary food is exhausted.

A few days' trial of Grape-Nuts tells the tale. Found at grocers, and made by the Postum Co., at Battle Creek, Mich.

It takes three hours for Chicago evening papers to get to Janessville. It takes less than one second for the telegraph to cover that distance. The Janessville Gazette receives full press association dispatches, and the news is three hours later than that of Chicago and Milwaukee evening papers sold in this part of the state.

PECULIAR KIND OF TRAMP

Was Deaf and Dumb And Carried a Slate to Write On.

Of the numerous hobos that have been quartered at the jail in the past few weeks, that proved to be one of the oddest freaks in that line applied at the bastle the fore part of this week and asked Turnkey Brown for a night's lodging. He was accommodated and the next morning went rejoicing on his way.

The man proved to be deaf and dumb, and on a slate he carried he wrote that he resided most of his time at the state deaf and dumb school at Delavan, and that he was now on his way there from Red Wing, Minn., where he had been in search of work. He preferred not to give his name.

To the Public I take pleasure in announcing that William Calder's company, which will present "The Span of Life" at the Myers Grand Tuesday, Sept. 27, is one of the strongest dramatic companies now before the public and can safely guarantee them to all my patrons.

Respectfully, PETER L. MYERS.

GOVERNMENT MONEY WON'T PAY EXPENSES

WHAT SOLDIERS HAVE COMING SOON SPENT.

Members of Co. A Are Now Obligated to Care For Themselves—Ration Allowance Will Be Given Them of Thirty-Five Cents a Day During Their Furlough.

When the Janessville boys who comprise Co. A. are mustered out of service next month but few will have money to show which they have obtained from the government. On the other hand the greater portion of them have spent far in excess of their earnings.

Especially is this true with reference to the privates whose pay was small compared to the officers.

When the First Wisconsin Regiment is mustered out next month they will draw pay for August and September and for part of October according to the date of the muster-out. In addition, they will receive whatever remains on their clothing fund and an allowance for rations at 35 cents a day for the time of their furloughs.

Some Compensations.

The postponement of pay day until the end of their service in the army will be a disappointment to many of the men, and something of an inconvenience as well, as many of them are about stranded, but Capt. Andrus, who has been detailed by the government to muster out the regiments, explains that even if the pay rolls had been made up to and including August 31, and property turned in without any of the delays that did occur, the men would be the gainer by only a few days, while they would be put to some inconvenience by being obliged to report at headquarters. The Second regiment will receive its August pay at the regular time, as the furloughs of that regiment are thirty days longer than those of the First.

Will Save Trouble.

Capt. Andrus thinks that the regiments will be mustered out at the home stations instead of at regiments. He had recommended this to the government and would probably have received an endorsement of his plans by this time if the draft which he made and sent on to Washington had not been mislaid down there, thus requiring him to forward another copy. The plan of mustering out at the home stations is considered best on the men's account, as it will prevent the hardships that would be incident to calling the regiments together again.

WILL BE WELL WORTH SEEING

The Span of Life to Be Produced at the Opera House on Tuesday

That perennially popular play, "The Span of Life," will be the attraction at the Grand Opera House next Tuesday night, and it is said will be presented by an excellent company and with the same attention to detail which characterized its first production. The action of the piece takes place in England and Africa. The first scenes are on the coast of Devonshire.

At the opening of the play an ineffectual effort is made to blight the existence of Richard Blunt, the hero, who, with his wife goes to the diamond fields of Africa. There he is haunted by an old enemy, Dunstan Leech, who has taken up the horrible calling of a slave trader. Aided by Arab followers, Leech seizes Blunt's wife and child, but they are set at liberty by the hero. In the effort to escape Leech and his Arabs, the mother flees through an African wilderness. In her flight she reaches a gorge. Finding the bridge gone, she resolves to slay her child then to commit suicide. From this appalling situation she is freed by three friends appearing on the opposite side of the chasm—humble followers of her husband, but none the less heroic men. Having been formerly acrobats in a circus, they hit upon the remarkable device of intervening their interlocked bodies across the chasm for a living bridge for the imperiled mother and her child to safety. Blunt with reinforcements is able to bring his persecutor to justice and having secured ample wealth, returns to England with those dearest to him. Nothing more thrilling than the escape of the mother and child over the bridge of human bodies has ever been seen on the stage. Seats on sale at box office Monday morning at 9 o'clock. Prices 25, 35, 50 and 75 cents.

Primary Pupils in the Congregational Sunday School Enjoy Themselves.

Seventy-five merry little ones who comprise the primary class of the Congregational church Sunday school, were given a rare treat today in the form of a trolley car party. Two of the open cars were placed at their disposal, and they were taken over all parts of the line. At noon the entire party made their way to the church parlors, where in waiting was a tempting repast. Those who had the affair in charge were teachers of the primary departments as follows: Mesdames—J. A. Craig, R. C. Denison, Minnie Menzies and R. Cheney. Misses—Franc Edwards, Katherine Van Aiken and Mabel Lewis.

EIGHTY-SEVEN WERE KILLED.

Thirty Thousand Persons Rendered Homeless in Windward Island.

Kingston, Jamaica, Sept. 24.—News received by mail from the Barbadoes is to the effect that 30,000 persons were rendered homeless by the recent hurricanes, and 4,487 houses were destroyed. These houses, however, were mere boxes, and can be put up again. No substantial building was destroyed. The houses that were wrecked will be replaced, the legislature having voted \$0,000 for the purpose, and \$15,000 for the relief of the sufferers.

The hurricane lasted ten hours, and at one period the wind attained a velocity of seventy-five miles an hour. Roofless and collapsed dwellings were seen everywhere, and the homeless people patrolled the streets.

Experienced sugar planters say that the sugar crop is absolutely ruined. Others are more optimistic and expect the canes to recover. The imperial government will be asked to make a loan for the relief of the sufferers from the storm.

BANDITS WRECK A CAR.

Train Hold-Up at Kansas City—Robbers Escape with Booty.

Kansas City, Mo., Sept. 24.—Another successful train robbery has been perpetrated almost within the limits of Kansas City. Missouri Pacific train No. 5, which left Kansas City at 9:20 o'clock Friday night on the Wichita and Little Rock division, was held up by masked men at Belt Junction, just east of Leeds, and within seven miles of the union passenger station.

The express car was detached and dynamite used with such effect that the car was blown to atoms. How much the robbers secured cannot now be definitely given. The Pacific express officials declare that the loss is small. It is known, however, that the proceeds of a sale of 7,000 cattle were forwarded on this train today and the express matter to Wichita and Coffeyville was unusually heavy.

It is reported that the passengers were not disturbed and no one was injured.

"Soldier boys shaved here free of charge during their furlough."

The above appears on a large sign that hangs in a West Milwaukee street barber shop window. Others who have money say that they prefer to pay for their work. Nevertheless this particular barber shop has made many more patrons by this little act of kindness.

Was In Janessville Last Week On His Way Home.

Private Renuis Nelson, of the Darlington company, who was in Janessville last week on his way from Milwaukee to his home in Rockford, died yesterday of fever at the city hospital in Rockford. The convalescents of the regiment started home a week ago Tuesday, arriving in Milwaukee a week ago. Nelson had a high fever on the train and when he reached Rockford Saturday he was in an alarming condition.

MINERS BLOWN TO DEATH.

Seventy Men Entombed in a Pennsylvania Colliery.

TWENTY ARE STILL MISSING.

Explosion in a Coal Shaft Near Brownsville—Forty Men Make an Almost Miraculous Escape Through an Abandoned Shaft—The Dead.

Brownsville, Pa., Sept. 24.—The most disastrous explosion in the history of the upper Monongahela mining district occurred at the Empire mine of Snowden, Simpson & Co., near here, Friday morning. Eight miners were blown to pieces, the mangled remains not being recovered till hours after the event. Many others were taken out of the mine alive, but with their bodies charred and mutilated. About forty men who were working in other parts of the mine were entombed, but escaped by an old passage. They reached the surface over two miles from the main entrance and returned home hours after their families had given them up as dead or perishing in the suffocating fumes of the deadly mine. Twenty men are still missing and are believed to be entombed. The known dead are:

ROBERT DAVIDSON, leaves a widow and one son.
JOHN BENNETT, JR., unmarried.
JOHN HEISTINGS, leaves a widow and two children.

SILAS HEISTINGS, unmarried.
JOHN W. CARTWRIGHT, married.
WILLIAM PRITCHARD, unmarried.
HARRY H. GER, unmarried.

The explosion took place between the main entrance and the headings in which over forty miners were working. As soon as the location of the explosion was discovered the mine officials and others familiar with the headings realized that the miners were cut off from the main entrance. Despair was in all hearts. To add to the dismay the relatives of the entombed miners rushed down to the works as soon as the shock of the explosion was felt. They heard the story of the disaster from the officials, who told them of the hopelessness of any attempt to rescue the men within.

Mothers, wives and children of the entombed men surged about the mine entrance hoping against hope. Gradually they dispersed and went to their homes, thoroughly broken in spirits, resigned to their fate and the still more terrible fate of their loved ones. Hours passed and still no tidings came. Then all their sorrow was turned into ecstasy by the report sent them by the mine officials that the men had escaped and were safe. The report was confirmed soon after, when the men, whom they supposed dead or dying, returned home with their picks and buckets, as they had so often done before.

The old entrance by which the men crawled to freedom was opened many years ago, and is on the other side of Brownsville from the present entrance. It is so long since it was used that but few knew of its existence. Many of the miners, however, were aware of it, and when the explosion passed and the men discovered they were shut off from communication with the outside world by the main heading they made a rush for this old abandoned entrance. It was closed, however, by numerous cave-ins. Nothing daunted, the men worked vigorously to reopen the old channel, for they were working to save their own lives. After several hours of incessant labor they at last saw the light of day.

The explosion occurred at 8 o'clock in the morning, one and one-half miles from the entrance. Seventy men had gone into the mines four hours previous. Before this the fire boss had made his customary rounds and had pronounced the mine safe. The explosion started in entry No. 9, followed instantly by a second shock in the adjoining entrance. Here the dead men were found. Here were also picked up a dozen men who had been burned or otherwise seriously injured. Some of them were scorched beyond recognition and more deaths are expected.

The explosion is supposed to have been started by a miner going into one of the unused chambers with his lamp lit.

Immediately following the explosion a rescuing party was organized and an attempt made to get into the mine. The rescuers were driven out by the deadly fire damp and the intense heat generated by the explosion. Several unsuccessful attempts were made before the party succeeded.

The scorched and mangled remains of the unfortunate men were loaded on four pit cars and hauled to the entrance. The work of identifying the bodies was difficult, as most of them were burned or lacerated beyond recognition. The men could be recognized only by special marks, such as their time checks or clothes.

A second rescuing party has been sent into the mine to make an extended search. Other parties will join them and every section of the mine will be scoured for those who it is feared are still shut up.

The Empire mine is one of the oldest in the district, and there are scores of old headings that will have to be searched for the men who are still entombed.

Distillery Explosion Kills One.

Spaniards Must Get Out.

Washington, Sept. 24.—A very peremptory message of instruction has been sent the Cuban military commission and by it made the basis of a note to the Spanish commissioners. The authorities in Washington will not make public the terms of the note, but its general tenor is that the United States will not be satisfied with any further delay in the evacuation of Cuba. It is to the effect that the terms of the protocol called for the immediate evacuation of Cuba and that Spanish sovereignty must be relinquished. The American commissioners have been informed that the evacuation of Cuba cannot be delayed.

To Form a Large Army.

Washington, Sept. 24.—Plans for two complete changes in the army are being matured. Both require action by congress, and it is the purpose of their sponsors to have bills ready for introduction as soon as congress convenes. One project is for a general staff, in which Gen. Miles is taking an active interest. The other is for the increase of the regular army to 100,000, which Congressman Hull of Iowa, chairman of the house military committee, is fathering.

Two Ways

One way is to lie, cheat, swindle, fool the people for six or eight months, get all you can, keep all you get and run away between two days. It is harder work than horse stealing, but it doesn't require as high an order of intellect. The other way is to tell the truth, sell honest goods, guard your reputation and build up a business that will last after you are dead and gone. It isn't easy, but it is worth all the work it costs. We have been building hardware business and reputation for thirty years; each year has seen an advance over the previous one and from present indications we think people will know this store after we are dead and gone.

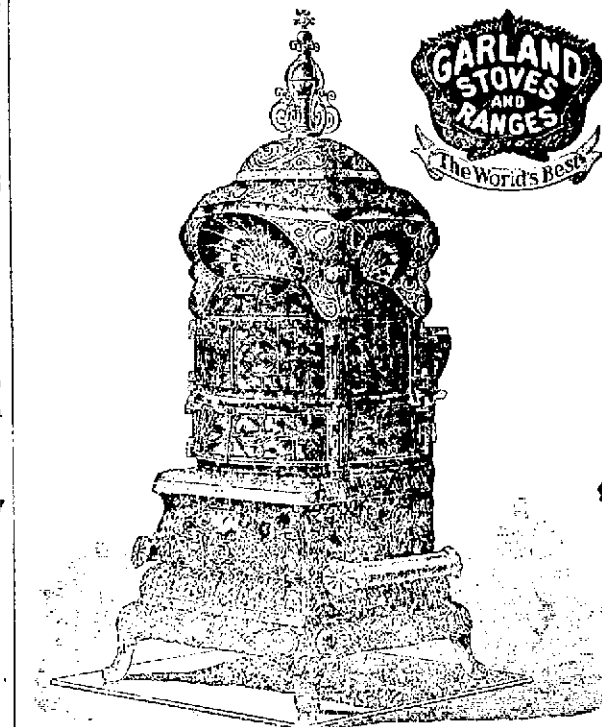

We are Pleased

To say we are very much alive now though. More agile than ever along the stove line this fall. We never bought so many stoves before as we have this fall and our stove business never opened up with such a rush at such an early date as it has this season but we are prepared for all comers. Southern Wisconsin never had a store with such a complete line of good stoves as we show.

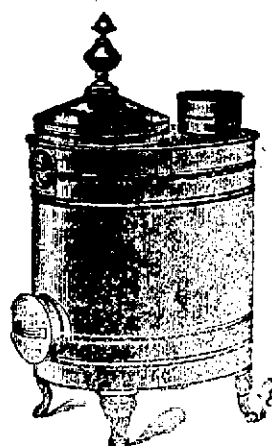

The World Famous Garland

A stove that all confidence can be placed in, when you rely on the judgment of the stove dealer (which nine out of ten people usually do,) as to the stove that will give them perfect satisfaction. The Garland always fills the bill.

If This Heat

Could be stored up until next winter we wouldn't be obliged to buy stoves,

STARTLING NEWS FROM CUBA.

Reported Action Against the United States.

RESISTANCE IS ADVOCATED.

Secret Circular Being Sent Out Urging Independent Action on the Part of Cubans—Further Interference to Be Resisted.

Havana, Sept. 24.—From Santiago comes a story which, if true, means that the United States may be forced to put down the Cuban insurgents by force of arms, or abandon them to their fate.

The story comes through those Cuban sources which are regarded as favoring annexation to the United States, or a protectorate over the island until the people are able to administer their own affairs. It appears that a printed document is being secretly but extensively circulated among certain Cuban societies urging action independent of what the United States may do, and declaring in the strongest of terms that further interference in Cuban affairs, no matter by what nation, will not be allowed, but will be resisted to the utmost, even to force of arms.

A copy of this circular was seen by the native who brought the news to this city, and he says the document is couched in the strongest terms; that it demands that no power shall be recognized in the islands save that of the people themselves; that no form of government will be recognized except that of an independent republic, which will bring to the people political and religious freedom, universal suffrage, and education of the masses, and which shall do away with standing armies and capital punishment.

The circular, it is said, while not containing the words "United States" or "America," is aimed directly at that country, as it says the people of Cuba do not admit the right of any other country to interfere in its affairs in any manner, no matter what interest of claim it may set up as a pretext for interference.

PLOT TO GRAB PHILIPPINES.

Kaiser Is Said to Be Scheming to Seize the Islands.

San Francisco, Cal., Sept. 24.—Serious complications with the Kaiser in the Philippines are feared. Private information has been received that secret agents of his, who were sent to the Philippines to look over the situation and formulate plans for getting possession of the islands, have returned and submitted a policy they have mapped out as most feasible.

They declare that between 100,000 and 150,000 Filipinos can be armed, equipped and thoroughly drilled by February next. They calculate that by that time America will not be able to land a force of over 40,000 or 50,000 men. The Filipinos will practically control all of the islands, while the army will be concentrated in Manila. American army will be concentrated in Manila, thousands of miles from its base of supplies. Devere's fleet, it is held, will be almost useless against the insurgents.

The plan is to load every vessel from the dominion of the Kaiser for the Philippines with arms and ammunition for the insurgents.

The agents report that the American forces are particularly weak in field artillery and suggest that a large number of machine guns and Krupp rapid-fire field guns and small artillery be supplied to the insurgents. It is recommended that every vessel carrying arms also carry a few of the Kaiser's officers in disguise to drill the Filipinos.

The report, it is stated, has been approved by the emperor, and within the next five or six months every vessel under his control that touches at the Philippines will carry arms and officers. The government expects to arm 150,000 Filipinos and organize and drill a force of 10,000 artillerymen.

Mr. Bryan Makes More Visits.

Washington, Sept. 24.—Gov. Holcomb and Congressman Stark of Nebraska accompanied Col. W. J. Bryan when he made another call on Adj. Gen. Corbin Friday to submit more documents asking the discharge of the Third Nebraska volunteers. Later the three men made a visit to the white house. Gov. Holcomb said nothing was done in regard to Col. Bryan personally, and that he intended to return at once to Jacksonville to rejoin his regiment.

Will Try to Hold Philippines.

Madrid, Sept. 24.—The starving condition of Spanish soldiers returning from Cuba is causing bitter feeling among the people and contrasts are being made with the excessive salaries of the peace commissioners. The commission numbers forty-two, including the commissioners, their retinue of interpreters, secretaries and clerks. It may be stated that the instructions given the commission are to defend all possible rights of Spain over all the Philippines, including Luzon island.

Cases Against Andel Dropped.

Camp Cuba Libre, Jacksonville, Fla., Sept. 24.—Col. Andel, of the Fourth Illinois regiment, was placed on trial Friday morning. Many of the charges preferred against Col. Andel were dropped and he is now being tried on the charge of maintaining a horse at the expense of the government for the use of the chaplain, when it was really used for hauling for the regimental canteen. Other charges are yet to be brought up.

SPREAD OF YELLOW FEVER.

Many Cases South but Only One Place Is Seriously Threatened.

Louisville, Ky., Sept. 24.—Telegraphic advices from the far south indicate that in only one town is the yellow-fever epidemic causing serious apprehension. Following is a resume of the situation: One case of yellow fever has appeared in the detention camp located two miles from Jackson, Miss., the patient being a white woman. The detention camp now contains thirty people who have been exposed. The cordon of guards about the place has been doubled and there is little danger that the disease will spread.

President Souther of the Louisiana board of health reports that there have been seventy cases of yellow fever at Franklin up to date. Two deaths have occurred and there are now fifteen cases under treatment, all doing well. Experts report five new cases at Orwood, Miss., during the last four days. Three persons are dangerously ill at Taylors, Miss., but only one new case is reported there.

The situation in the town of Oxford, Miss., is growing serious and it is feared that the health board will be unable to check the disease before it spreads throughout the village. There were two deaths there yesterday and one new case.

A Woman's Work.

For thirteen years this woman suffered from a helpless infirmity which baffled skillful medical treatment. She was restored to health in a remarkable manner, and is now helpful to other sufferers.

For thirteen years Mrs. George L. Rogers, of West Main Street, Canton, N. Y., suffered from the indescribable tortures of inflammatory rheumatism.

Only persons who have been afflicted with this disease know what such suffering is.

Those who have never felt the pangs of this ailment have not the remotest idea of its tortures.

For years this was an obstinate disease to cure.

In recent years, however, there has been formulated a remedy which successfully cures with it.

The many cures effected by Dr. Williams' Pink Pills for Pale People attest to that fact.

One of the striking examples is Mrs. Rogers' experience.

In speaking of it to a reporter she said:

"Thirteen years ago I was attacked with inflammatory rheumatism and a complication of diseases.

"I cannot begin to describe my sufferings during that time.

"You can judge somewhat of what I endured, when you look at these hands." They were distorted, twisted and swollen.

"My foot, too, is so much out of shape that the big toe lays across the others, the end touching the little toe.

"Notwithstanding I am sixty-five years old, have a pleasant home and other comforts, life to me was far from enjoyable, for all other things pale into insignificance when you are without good health.

"I tried different doctors and many proprietary remedies, but no permanent benefit was obtained.

"Last March I was induced to try Dr. Williams' Pink Pills for Pale People.

"Before I had finished the first box I began to feel that they were doing me good.

"I continued using them and steadily grew better.

"I have used thirteen boxes of the pills and to-day feel better than for the past fifteen years.

"My appetite is good; I feel bright, cheerful and have a desire to live and enjoy society.

"I have been a member of the Methodist church for many years, but for six years was unable to attend.

"Now I am able to attend the church services regularly and certainly appreciate that privilege.

"I consider Dr. Williams' Pink Pills for Pale People a wonderful medicine and am confident no other remedy could have effected the wonderful cure they have in my case.

"I am glad to state this, hoping that some sufferer may profit by it and obtain relief."

It was nature's own remedy that accomplished this cure caused by impure blood, for Dr. Williams' Pink Pills for Pale People are composed of vegetable remedies that exert a powerful influence in purifying and enriching the blood.

Many diseases long supposed by the medical profession to be incurable have succumbed to the potent influence of these pills. This universal remedy is sold by all druggists.

WHY USE

POND'S EXTRACT OINTMENT IS UNEQUALLED FOR PILES.

Pond's Extract

Why not something else?

DR. J. J. THOMAS says: "It is incomparably superior to any extract of Hamamelis I have ever used."

DR. O. G. RANDALL says: "Nothing can equal Pond's Extract. I have tested others, and yours is four times as strong as the best."

DR. J. C. MITCHELL says: "Pond's Extract of Hamamelis Virginica is the only reliable article I have found."

DR. L. K. WEBSTER says: "The difference between Pond's Extract and so-called Witch Hazel is the difference between a cent and a dollar."

DR. H. F. MERRILL says: "It is far superior to any I have used in strength and purity."

DR. R. J. HARRISON says: "I have never found any extract equal to Pond's."

DR. POWELL says: "Hereafter I shall use no other than Pond's Extract."

And numerous others of similar purport.

And that's why.
